

Straight Teeth are Healthy Teeth

Misaligned teeth leave you more susceptible to health issues in the mouth and beyond. A good occlusion (straight teeth) can lead to healthy gums, better oral hygiene and less wear and tear on your teeth.

SimplyClear® aligners treat a wide variety of malocclusions including:

Crossbite

Spacing

Overjet

Deep Bite

Crowding

Open Bite

Put Your Smile First

Getting the smile you love with SimplyClear® is... simple.

1 Get Started

Your SimplyClear provider will scan your teeth and take any necessary photos and x-rays used to plan your case.

2 Receive Customized Aligners

With the support of an entire Orthodontic team, your simplyclear provider will approve your treatment plan and deliver your custom clear aligners.

3 Transform Your Smile on The Go

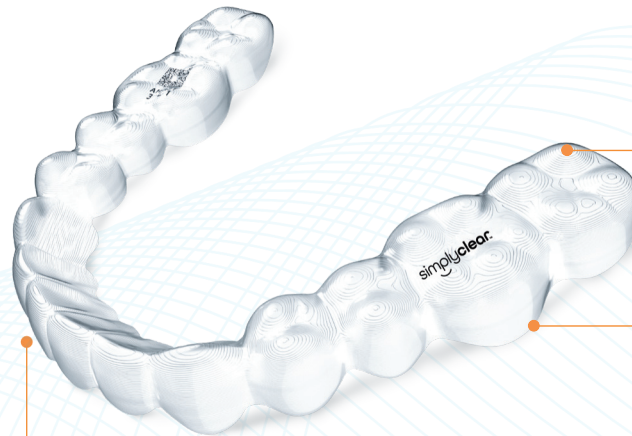

Wear your aligners as prescribed by your doctor. With each clear aligner step, your teeth will gradually move into the desired position.

4 Lock in Your Perfect Smile

Bring on the confidence. Once you and your doctor are happy with your final smile, you will receive retainers to lock in that smile.

SimplyClear.com

The SimplyClear aligner system is a simple, easy, and effective way to achieve a beautiful, healthy smile. Every SimplyClear case is planned and evaluated by your Dentist and a partner Orthodontist for the highest level of quality and accuracy. Ready to get started?

Nearly Invisible

Multi-layer light diffusion combined with an anti-reflective surface makes SimplyClear virtually invisible.

Trimmed to Perfection

SimplyClear aligners have expertly trimmed and polished edges, customized to each patient's teeth.

Comfortable

SimplyClear delivers a gentle, constant force designed to provide accurate tooth movement and a comfortable patient experience.

Easy to Wear

Flexible material makes it a breeze to insert, wear, and remove SimplyClear clear aligners.

Effective Results

SimplyClear has the perfect combination of rigidity and flexibility to effectively treat many different malocclusions.
