SimplyClear® Treats a Range of Conditions

Straight teeth are essential for maintaining oral health and a beautiful smile. SimplyClear® aligners effectively address various needs to help you achieve optimal dental alignment.

Crowding

The teeth overlap due to lack of space, making cleaning difficult.

Spacing

Noticeable gaps between teeth due to extra room in the jaw or other factors

Overjet

The upper front teeth extend significantly farther forward than the lower front teeth.

Crossbite

One or more upper teeth sit behind the lower teeth when the mouth is closed.

Open Bite

The upper and lower teeth do not meet when the mouth is closed, leaving a visible gap.

Deep Bite

The upper front teeth excessively overlap the lower front teeth when the mouth is closed.

Why Choose SimplyClear® Aligners

PRECISION-FINISHED TRIM

Precisely trimmed and polished along the gingival margin to support comfort, retention, and consistent tracking.

SELF-ADAPTIVE MATERIAL

Powered by a multilayer polymer designed to balance flexibility and rigidity across different tooth movements.

STAIN RESISTANCE

Engineered to resist staining during normal wear.

COMFORT & EASE OF WEAR

High-elasticity material with improved memory delivers gentle, consistent force to support planned tooth movement.

TEAR RESISTANCE

Durable material helps resist tearing and maintain the aligner's structure during normal use.

VIRTUALLY INVISIBLE

Stays clear and discreet, letting your natural smile shine through.

Put Your Smile First

Getting the smile you love with SimplyClear® is... simple.

Receive Customized Aligners

We will scan your teeth and take any necessary photos and x-rays used to plan your case.

Get Started

Wear your aligners as prescribed by us. With each clear aligner step, your teeth will gradually move into the desired position.

Transform Your Smile on The Go

Bring on the confidence. Once you are happy with your final smile, you will receive retainers to lock in that smile.

Lock in Your Perfect Smile

With the support of an entire Orthodontic team, we will approve your treatment plan and deliver your custom clear aligners.
