

How to Add a Canva Website Template to Your Website

1. **Copy the HTML embed code** provided for the template.
2. **Open your website's editor** and navigate to the page where you want the template to appear.
3. **Add an HTML/Embed Code block** to the page. This may be called "Embed," "Custom HTML," or "Code," depending on your website platform.
4. **Paste the HTML code** into the block.
5. **Save or publish your changes.**
6. **Preview the page** to make sure the template displays correctly.

Tip: If you're not sure where to add HTML code, contact your website provider or whoever manages your practice's website. They can add the code for you.

EMBED LINK:

```
<div style="position: relative; width: 100%; height: 0; padding-top: 224.8902%;  
  
padding-bottom: 0; box-shadow: 0 2px 8px 0 rgba(63,69,81,0.16); margin-top: 1.6em; margin-  
bottom: 0.9em; overflow: hidden;  
  
border-radius: 8px; will-change: transform;">  
  
  <iframe loading="lazy" style="position: absolute; width: 100%; height: 100%; top: 0; left: 0; border:  
  none; padding: 0;margin: 0;"
